Once paired, activities are conducted according to the schedule organized by the project coordinator. Participants are required to attend a training session during the first week of activities to confirm equipment requirements. Before the first session, participants must set up meeting rooms on platforms such as Google Meet, Microsoft Teams, or other designated software. The meeting room link should be shared with the course TA. If the meeting room is changed during the semester, participants must inform the TA in advance. Participants should enter the meeting room 10 minutes before the session to prepare, ensure the venue is suitable for the class and recording, and wait for the student to join. Once the student enters, the session begins, and recording is initiated, with appropriate breaks provided. If the younger learning partner needs to leave temporarily, their status should be monitored, and any issues should be promptly reported to the course TA. After the session, participants should exit the meeting room and upload the recorded video to the designated cloud storage as proof of attendance. Activities commence in the fourth week of the semester, with a break during the ninth week, and conclude in the sixteenth week. In principle, tutoring sessions are conducted once a week on a fixed day chosen by the student. If a national holiday, consecutive holiday, natural disaster, or other uncontrollable factors such as official, sick, or bereavement leave occur, the course TA will coordinate a rescheduling of the session.</p>
