

From 13<sup>th</sup> October 2022 onwards

Precautionary Measures Adjustment Concerning Nationwide Schools  
(including kindergartens, cram schools, and afterschool programs)

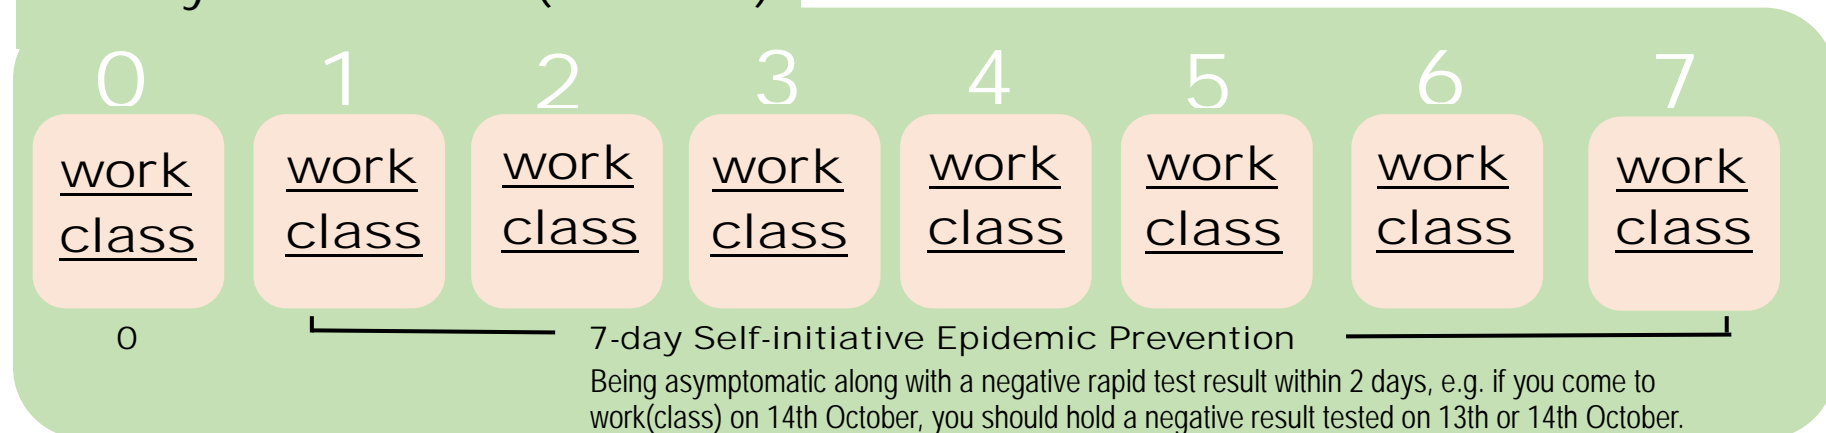

## During Self-initiative Epidemic Prevention Period

(if your co-living family members or roommates get COVID-19)

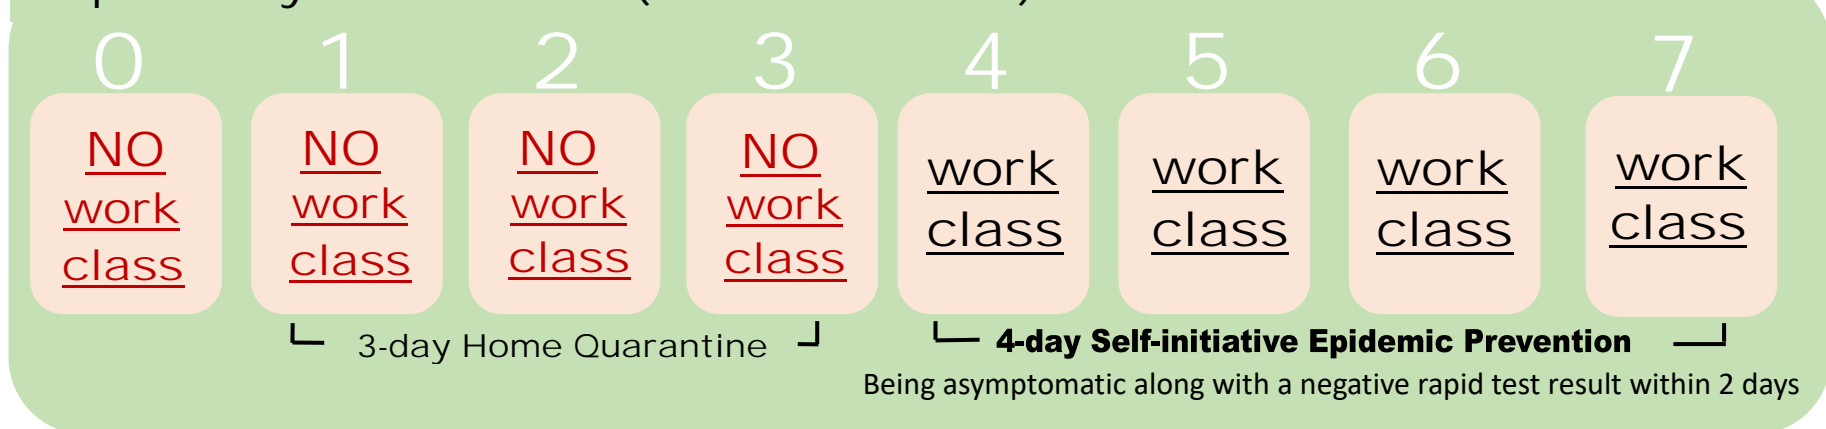

■ **Symptomatic** - one should not come to class/work

■ **Asymptomatic** - one may come to class or work with a negative rapid test result within 2 days:

If fully vaccinated (3 doses)

If partially vaccinated (under 3 doses)

From 13<sup>th</sup> October 2022 onwards

## Incoming Students Arriving from Abroad

From **13th October 2022** onwards, adjustments will be made in line with border-control regulations.

**Unrestricted access to airports/  
harbors.**

**During Self-initiative Epidemic  
Prevention (0+7 days), if the  
incoming student is **asymptomatic**  
and holds a **negative rapid test**  
**result**, you may come to class/work.**

From 13<sup>th</sup> October 2022 onwards

# Self-initiative Epidemic Prevention – Residence Arrangement

## Requirement of Quarantine Residence:

**(A)** one person/per room (with an independent bathroom)

**(B)** if in the dormitory:

### Asymptomatic:

one person per room (with an independent bathroom) in the ordinary-dorm; those with the same arrival date may be arranged in the same dorm

### Symptomatic:

one person per room (with an independent bathroom) in the quarantine-dorm

## Rapid Test

**Test positive:** stay in the care-dorm

### Roommates testing positive:

confirmed cases stay in the care-dorm; the rest of the roommates conduct home quarantine or Self-initiative Epidemic Prevention.

\*If the school cannot accommodate infected incoming students, they will be transferred to the collective quarantine facility.

From 13<sup>th</sup> October 2022 onwards

# Self-initiative Epidemic Prevention – Transport Arrangement

## **Asymptomatic:**

You may take public transport, be picked up by families, friends or others (vehicles arranged by the school), or drive yourself to your Self-initiative Epidemic Prevention location.

## **Symptomatic:**

After taking a saliva PCR, you should take vehicles arranged by the school to the Self-initiative Epidemic Prevention location.
